

FASOUL & LIGHTTEC DEBUT ON TRACK AS BATMOBILE RACING SWEEPS DOUBLE VICTORY AT LAMBORGHINI SUPER TROFEO ASIA, FUJI SPEEDWAY

Fasoul-Lighttec-liveried Car #3 achieves P1 in Pro class at Fuji Speedway

FUJI SPEEDWAY, JAPAN — Fasoul made its motorsport debut at Fuji Speedway this weekend, as partner team Batmobile Racing delivered a dominant double victory in the Pro class at the **Lamborghini Super Trofeo Asia**. Drivers **William Tregurtha** (United Kingdom) and **Jonathan Cecotto** (Monaco) piloted the Car #3 Lamborghini Huracán Super Trofeo EVO2 — to P1 in Race 1 and P1 in Race 2, standing out among a competitive field of Lamborghini race cars with a perfect weekend result.

Trackside with Fasoul

Against the stunning backdrop of Mount Fuji, Fasoul hosted an exclusive trackside reception for partners and guests throughout the race weekend. Attendees joined Fasoul and Lighttec representatives for a guided tour of the Batmobile Racing pit garage, experiencing the intensity of

race preparation up close before watching the action unfold from the team's hospitality area. The occasion also provided an opportunity for both parties to explore future collaboration possibilities in a dynamic, high-energy setting.

Fasoul Q1 PRO Racing Edition

To commemorate the partnership's debut at Fuji Speedway, Fasoul previewed a special-edition visual design inspired by the Car #3 Batmobile Racing livery, the **Fasoul Q1 PRO Racing Edition**. Further product information, where applicable, will be communicated only through appropriate age-restricted official channels in accordance with laws and regulations.

At the core of the limited edition is Fasoul's **EverCore Tube Technology** — a next-generation composite glass heating element that delivers full-zone uniform heating, extending heater lifespan to over two years and raising stick utilisation rates to 90%. This thermal foundation enables Fasoul's innovative **Secondary Mode**, whereby a tobacco stick already used once with another HNB device can be inserted into a Fasoul device and enjoyed again — effectively enabling one stick to be used twice — translating into improved utilisation.

About Fasoul

Fasoul is a technology-driven brand dedicated to innovation in the heat-not-burn (HNB) sector. Through continuous engineering research and product development, Fasoul is committed to driving product evolution and enhancing user experiences, delivering greater value to adult consumers.

About Lightec

Lightec is a historic Japanese company founded in 1937, dedicated to enhancing modern lifestyles through innovative products and thoughtful design. Guided by a commitment to quality, accessibility, sustainability, and continuous innovation, it has established itself as a trusted brand that anticipates and responds to the evolving needs of consumers.

Recognized for its trusted reputation and enduring presence in the Japanese market, Lightec continues to build on its legacy of delivering innovative products and exceptional customer value. Its partnership with Batmobile Racing reflects a shared pursuit of excellence.

Quotes

"Seeing the Fasoul livery on track at Fuji Speedway was a proud moment for our team. Together with Lightec, we are pleased to support Batmobile Racing and to mark the start of this partnership in Japan. Much like Lamborghini, we aspire to deliver extraordinary experiences to consumers around the world. We look forward to growing the collaboration in the seasons ahead."

— **Gavin Zhang, Director, Fasoul**

"It was truly exciting to witness the decisive overtake for the race lead. The authentic Italian hospitality, from the food to the beverages, made the experience even more enjoyable. The atmosphere at the circuit was incomparable to watching on TV, and I found myself repeatedly saying, 'How incredible!' Having the opportunity to sit in the driver's seat was also an unforgettable experience."

— **Head of Public Relations, LIGHTEC INC.**

"It has been a fantastic weekend for the team. The atmosphere at Fuji was incredible, the car was strong, and the whole operation came together from start to finish. We are grateful to Fasoul and Lightec for their support, and we now turn our focus to the next round."

— **Batmobile Racing Team Manager, Iris**

"What a weekend. The energy at Fuji was something special, and it was great to race in front of such passionate fans. To take P1 in both races on our debut together is an incredible feeling — we couldn't have asked for a better start. A big thank you to the whole team for their hard work, and to Fasoul and Lightec for their support this weekend."

— **Jonathan Cecotto, Car #3 Driver**

"Fuji delivered everything we expected — intense racing, a brilliant atmosphere, and a challenging circuit. The car felt strong and the team gave us a great package to work with. We are already looking forward to the next one."

— **William Tregurtha, Car #3 Driver**
